

# Resume - Aspiring Cybersecurity Professional

Jide

[Your Address] | Lagos, Nigeria

+234 6995534 | jide@gmail.com | [LinkedIn Profile] | [GitHub Profile]

## Objective

Aspiring cybersecurity professional with a strong foundation in programming and experience with SIEM tools.

Skilled in C and Python, seeking a challenging role in cybersecurity to leverage technical expertise in securing systems and mitigating threats.

## Skills

- Programming Languages: C, Python
- Cybersecurity Tools: SIEM (e.g., Splunk, QRadar)
- Networking: Basic understanding of TCP/IP, DNS, Firewalls
- Security Concepts: Threat detection, log analysis, incident response
- Other Skills: Problem-solving, attention to detail, teamwork

## Education

Bachelor of Science in Computer Science

University of Lagos, Lagos, Nigeria

September 2019 - June 2023

Relevant Coursework: Cybersecurity Fundamentals, Secure Programming, Network Security

## **Resume - Aspiring Cybersecurity Professional**

### Experience

#### Cybersecurity Intern

TechSecure Solutions, Lagos, Nigeria

July 2022 - December 2022

- Monitored and analyzed security events using SIEM tools to identify threats.
- Developed Python scripts to automate log analysis and improve response time.
- Investigated and resolved security incidents under supervision.
- Contributed to weekly reports on security event trends.

#### Programming Intern

CodeMasters Ltd, Lagos, Nigeria

June 2021 - August 2021

- Designed and debugged applications in C and Python.
- Collaborated with team members to implement secure coding practices.
- Assisted in developing a file encryption system for secure data storage.

### Projects

#### File Encryption System

- Designed and implemented a scalable file encryption project using C.
- Ensured secure data handling and encryption with industry standards.
- Documented the project and provided user-friendly instructions.

#### Python-based Threat Detection Tool

- Built a Python script to analyze system logs for suspicious activities.
- Integrated the script with a SIEM platform to enhance monitoring.

## **Resume - Aspiring Cybersecurity Professional**

### **Certifications**

- CompTIA Security+ (In Progress)
- Completed "Introduction to Cybersecurity" by Cisco Networking Academy

### **Achievements**

- 1st place in a university coding competition, 2022.
- Completed an online ethical hacking course with distinction.

### **Interests**

- Cybersecurity trends and advancements
- Learning new programming languages
- Ethical hacking and vulnerability assessment
